September 16th, 2020

Importance Notice to Southwold Township Water Customers

On September 22nd, 2020 the Township will be undertaking testing on our water system that may result in a reduction of our usual pressures. During this testing, the Secondary Water Board will also be making minor repairs to their system.

During maintenance, residents may experience a drop in pressure. Any disruption should be of a short duration and should only occur while mains in the area are being flushed. It is recommended that you turn on a cold water tap, preferably in a laundry tub, to flush out your service once flushing has occurred in your area. If there is an aerator on your tap, remove it prior to flushing your taps.

On the Evening of October 4th, 2020 and during the day on October 5th, 2020 we will again be experiencing pressure reduction. The Secondary Water Board will be replacing two valves. This work will require that all the water will be coming from the Dutton Dunwich supply.

Our annual fire hydrant flushing will also be completed this Fall by the Ontario Clean Water Agency from October 13th through October 30th, 2020.

If you have any questions, please contact the Township Office at 519-769-2010.

Thank you for your cooperation,

Ken Loveland, CAO/Clerk
Township of Southwold
