Asphalt Paving Notice

Dear property owner/resident:

We want to inform you that starting on Monday June 19, 2023, asphalt paving will be taking place in your area.

During the paving process, there may be temporary disruptions, including limited access to driveways and parking areas. We apologize for any inconvenience caused and will work to minimize these disruptions as much as possible.

Please have your vehicle(s) off out of the street by 7 a.m. For your safety follow directions given by the contractors when near the construction area. Prior to paving a thick tarry substance known as tack coat is spread, DO NOT drive on this substance as it will coat your vehicle and is hard to remove. Asphalt is extremely hot, do not walk on or near fresh asphalt, obey all signage and direction given by the contractor.

Please follow temporary traffic control measures implemented during the construction period.

We appreciate you patience as we complete the improvements to your neighborhood.

If you have any question or specific accessibility needs or concerns, contact our Township Project Manager:

Paul Van Vaerenbergh, CRS-1
Public Works Superintendent
519-769-2010
