

Shedden Wastewater Treatment Plant – Notice of Construction

Dear Resident,

The Township of Southwold will soon begin construction of a new Wastewater Treatment Plant in your area. This notice provides important information about the project and how work on the site may impact nearby properties.

Project Details

Project Name: Shedden Wastewater Treatment Plant

Location: 9158 Union Road, South of Corsley Park

Schedule: Tentative start date – November 17th, 2025 (*weather permitting*)

Estimated completion: *March 2027*

Contractor: Hayman Construction

Scope of Work:

- Construction of a new wastewater treatment facility
- Installation of new sanitary sewers, forcemains, and associated work
- Site grading, stormwater management, and drainage improvements
- Electrical, instrumentation, and control system installation
- Access road and fencing construction
- Landscaping and final site restoration

Important Information for Residents:

As part of this project, a new wastewater treatment plant will be constructed on a closed work site located off Union Road. While most work will take place within Township property, nearby residents may notice an increase in construction activity, including truck traffic, noise, and equipment movement in the area.

How Construction May Impact You

- **Traffic:** Union Road will remain open to local traffic throughout construction. However, there will be periods of single-lane closures as needed.
- **Noise:** Construction may cause occasional noise from equipment and machinery, generally limited to daytime hours.
- **Safety:** For your safety, please avoid the construction area and keep a safe distance from vehicles and equipment.

Sincerely,

Aaron VanOorspronk, L.E.T.
