#### Site Plan Approval Application

\*Possible uses that can cause contamination include: operation of electrical transformer stations, disposal of waste materials, raw material storage, and residues left in containers, maintenance activities and spills. Some commercial properties such as gasoline stations, automotive repair garages, and dry cleaning plants have similar potential. The longer a property is under industrial or similar use, the greater the contamination. Also, a series of different industrial or similar uses upon a site could potentially increase the number of chemicals which are present.

If previous use of property is industrial or commercial, or if YES to any of questions above, please attach a previous use inventory showing all former uses of the subject land, or if applicable, the land(s) adjacent to the subject lands.

#### ACKNOWLEDGEMENT CLAUSE

I hereby acknowledge that it is my responsibility to ensure that I am in compliance with all applicable laws, regulations and guidelines and the Township's Official Plan policies pertaining to contaminated sites. I acknowledge that as a condition of approval of this application that the Township may require me to file a Record of Site Condition signed by a qualified person in the provincial Environmental Site Registry, and provide verification to the Township of acknowledgement of this Record of Site Condition by the Ministry of Environment. I acknowledge that the Township may require the qualified person signing the Record of Site Condition to submit to the Township a Declaration acknowledging that the Township may rely on the statements in the RSC. I further acknowledge that the Township of Southwold is not responsible for the identification and/or remediation of contaminated sites, and I agree, whether in (or as a result of) any action or proceeding for environmental clean-up of any damage or otherwise, I will not sue or make claim whatsoever against the Township of Southwold, its officers, officials, employees or agents for or in respect of any loss, damage, injury or costs.
